Company Overview:

Pharma Lord (Pvt) Ltd is a dynamic and forward-thinking pharmaceutical company, established in 2013. We are dedicated to improving global healthcare by manufacturing a wide range of high-quality pharmaceutical products. Our current product portfolio includes Antibiotics, General medicines, Iron Supplements, Multivitamins, and specialized Oncology medicines, all available in various convenient dosage forms such as Tablets, Capsules, Dry Suspensions, Liquid Syrup, and Sachets.

Manufacturing Expertise:

At Pharma Lord, we pride ourselves on maintaining an advanced manufacturing facilities that comply with strict international quality standards according to parameters of Good Manufacturing Practices (GMP). Our expertise in pharmaceutical production allows us to deliver safe and effective medications to patients and healthcare professionals worldwide.

Mission:

Our mission is to enhance the quality of life for people worldwide by providing superior pharmaceutical products that are safe, effective, and accessible. We are committed to meeting the healthcare needs of patients and healthcare professionals, while contributing to the advancement of medical science through continuous research and development.

Vision:

We envision becoming a leading global pharmaceutical company, known for our unwavering commitment to quality, innovation, and patient welfare. By expanding our international presence and continually enhancing our product portfolio, we aim to make a meaningful impact on healthcare systems worldwide.

Product Portfolio:

1. Antibiotics:

Our portfolio includes a wide range of antibiotics that effectively combat bacterial infections. These products are manufactured using advanced technologies and are available in Tablets, Capsules, Dry Suspensions and Sachet forms, ensuring ease of administration and optimal therapeutic outcomes.

2. Oncology Medicines:

As part of our commitment to fighting cancer, we develop a range of oncology medicines in Capsule form. These cutting-edge treatments are designed to target specific cancer types and improve the lives of patients battling this complex disease.

3. Cardiovascular Medicines:

Our cardiovascular medications are designed to manage heart-related conditions and support cardiovascular health. These medicines are formulated to meet the specific needs of patients and are available in convenient dosage forms.

4. Diabetic Medications:

We produce a range of diabetic medications to help manage diabetes and promote better glucose control. Our diabetic medicines are available in different formulations, enabling personalized treatment plans for patients.

5. Anti-depressants and Psychiatric Drugs:

Our portfolio includes specialized medications for mental health, addressing depression and psychiatric conditions. These drugs are carefully developed to improve patients' mental well-being and quality of life.

6. General Medicines:

We offer a comprehensive range of general and OTC medicines that cater to various therapeutic areas, addressing common health conditions. These medicines are available in Tablets, Capsules, Sachet, and Liquid Syrup forms, providing convenient options for patients.

7. Analgesics:

We manufacture a variety of analgesics to alleviate pain and discomfort effectively. Our analgesic products are designed to address different levels of pain intensity and are available in various convenient dosage forms.

8. Iron Supplements:

To address iron deficiency and anemia, we produce high-quality iron supplements available in Tablet, Capsule, Sachet and Liquid Syrup formulations. Our supplements are formulated to enhance iron absorption and improve overall health.

9. Minerals & Multivitamins:

Our minerals & multivitamin products are thoughtfully designed to provide essential vitamins and minerals necessary for overall well-being. Available in Tablets, Capsule, Sachet and Liquid Syrup forms, these supplements support the immune system and promote optimal health.

10. Obstetrics and Gynecological Medicines:

We are proud to manufacture Obstetrics and Gynecological medicines, catering to the unique healthcare needs of women. Our products in this category are carefully formulated to support women's health and well-being.

Global Reach:

Pharma Lord (Pvt) Ltd has expanded its presence globally, with a significant focus on international markets. We export our pharmaceutical products to different countries, contributing to better healthcare access and meeting the diverse needs of patients around the world.

Government Hospital Supplies:

Recognizing the importance of providing accessible healthcare, we collaborate with government hospitals to supply our products. Our partnership with these institutions ensures that patients receive quality medications at affordable prices, supporting public health initiatives.

National Market:

In addition to serving international markets, we are committed to meeting the healthcare needs of our national market. Our products are readily available to patients across the country, ensuring accessibility and affordability.

In-House Printing Press and Packaging Setup:

To ensure timely stock supplies and control counterfeit printing of our products, we have invested in an in-house printing and packaging setup. This setup empowers us to maintain stringent quality control measures and streamline our supply chain for improved efficiency.

Expansion Plans:

In response to growing demand and in pursuit of diversification, Pharma Lord is set to expand its operations further. We are soon launching our second manufacturing facility named Lord's Healthcare (Pvt) Ltd. This new facility will encompass nine sections, including three dedicated to the production of Probiotics. Lord's Healthcare (Pvt) Ltd is our upcoming venture that focuses on Nutraceuticals. The facility will manufacture a wide range of Nutraceutical products, dietary supplements, functional foods, and health-enhancing products.

Future Plans: Injectable Range

As part of our commitment to continuous growth and innovation, we have ambitious plans to venture into the manufacturing of Injectable pharmaceuticals in the near future. This expansion will allow us to cater to a broader range of therapeutic needs and contribute to the well-being of patients worldwide.
